⁽¹⁾ Starting 2013, the non loss absorbent AT1 and T2 capital is subject to a 10% per annum phase-out in terms of Basel 3.

⁽²⁾ This value is currently 11% of risk-weighted assets, being the Basel global minimum requirement of 8%, the Capital Conservation Buffer of 2.5% and the Domestic Systemically Important Bank ("D-SIB") capital add-on of 0.5%, disclosable in terms of Directive 4 issued by the Prudential Authority on 27 August 2020. Directive 4 has replaced Directive 6 of 2016 and requires banks to publicly disclose their D-SIB capital add-on as part of their composition of regulatory capital disclosure. In terms of the regulations relating to banks the Individual Capital Requirement ("ICR") is excluded.

The Prudential Authority issued Directive 2 on 6 April 2020 and temporarily relaxed the Pillar 2A South African country-specific buffer of 1% to provide temporary capital relief to banks during this time of financial stress following the outbreak of the Covid-19 pandemic, in a manner that ensures South Africa's continued compliance with the relevant internationally agreed capital framework.
